In 1994, Urania Christy Tarbet had a dream to advance the fine art medium of pastel by forming an association that would unite individual pastel societies under an umbrella; thus, the International Association of Pastel Societies (IAPS) was born. From its humble beginnings, IAPS, a nonprofit volunteer-based organization, has continued her mission. Urania served as the first president of IAPS being succeeded by Maggie Price in 2011, Liz Haywood-Sullivan in 2013, and myself in 2017.

Over these tenures, the organization has continued to educate the public on the beauty and merit of pastel through educational opportunities and exhibitions, helped to create a testing standard for lightfastness with ASTM, and broadened its outreach globally. All of this has been accomplished through the generosity of many individuals who have tirelessly given their knowledge and energy to the organization. There are far too many to be able to mention each one here but thank you!

Over these decades, IAPS has navigated and adapted to an ever-changing world. When IAPS started the internet was still in its infancy. Today we are all connected like never before. At the 2024 convention banquet closing, I announced that a transition was beginning to a new administration. Working closely with my friend, Vice President, Shirley Anderson, that transition has come to fruition. It has been a privilege to serve the organization, and I am again reminded of Urania and her dream as we gather to celebrate all things pastel!

PSA-MP & HFH, PSWC-DP & PL, IAPS-EP
IAPS President

The 2026 convention is a true celebration of everything IAPS has accomplished over the decades. I joined the board of IAPS in 2017 and throughout the interim have worked my way up through the officer positions. I am looking forward to becoming President at the Saturday evening honors banquet. My long-term friendship and artistic relationship with Richard has given me valuable preparation and encouragement throughout my many years serving IAPS.

We are all familiar with the commonly used phrase that success takes a village. That has never been more apparent than in the artists' collective contributions to what has truly become the “pastel family reunion”. The spirit, unity, and passion displayed throughout this event are a testament to the strength and camaraderie within our community.

At the banquet on Saturday night, I am looking forward to introducing the board that will be serving going forward, along with the officers who will be working to continue the goals of the organization.

And as we all move forward, again I want to acknowledge the contributions and enthusiasm that the entire global pastel community has given on behalf of pastel. Together we will all continue to make the future of IAPS both memorable and purposeful not only to the member societies that we serve but to the entire community of artists working with the fine art medium of pastel. Considerable effort has been put into continuing the educational scholastic mission of IAPS, and we are thrilled to have already laid the groundwork on what is sure to be a very exciting collaboration with the Pastel Society of New Mexico. If any other societies are interested in working with us in a similar capacity in the future, please contact me. In the future beyond that, no matter what it holds, we know that the legacy of pastel is now on solid footing thanks to the organization that we call IAPS.

MOVING FORWARD

We hope you can join us for our first Society Highlight. This event will be a collaboration between IAPS and the Pastel Society of New Mexico, the first of the many collaborations we will have with the societies as the new concept of IAPS. It is scheduled for October 19 – 24, 2027. Don't miss this chance to reconnect with old friends.

In collaboration with the International Association of Pastel Societies (IAPS), the event promises an exciting lineup. Come experience the deep blue skies, spectacular foliage, and crystal clear landscapes of New Mexico in the autumn.

The upcoming society get-together will feature a diverse range of activities designed to foster creativity, connection, and inspiration among attendees. Participants will have the opportunity to attend up to six workshops, each offering unique insights and hands-on experiences. In addition to the educational sessions, there will be several dinners, providing a welcoming atmosphere for networking and camaraderie. Meet-ups will also be organized throughout the event, allowing members and guests to engage in meaningful discussions, share ideas, and build lasting relationships.

In addition, our members will host “paint-alongs,” plus selected trips where groups can explore and photograph unique parts of New Mexico including Abiquiu and the High Road to Taos. The paint-alongs are open to all skill levels. Studio visits will also be included. Weems Gallery will host a two-week exhibition and an opening reception. We will have Ambassadors who will help you plan excursions, get directions, and provide other support to help you explore the “Land of Enchantment.”

Autumn in the American Southwest is spectacular!

WELCOME TO THE 2026 IAPS PASTELWORLD EXHIBITION

Wednesday, June 17th to Saturday, June 20th

It is a true privilege to join all of you here in Albuquerque and to experience the 2026 IAPS PastelWorld Exhibition in person. The exhibition showcases an incredible range of artwork, reflecting both the remarkable quality and the impressive diversity of the pieces selected for this show. Such an outstanding event is only possible thanks to the tireless work of the exhibition committee, who collaborate closely with the executive committee of IAPS to ensure its success. In particular, Caprise Cooper, Becky Neideffer, and Carol Hall have played vital roles throughout the entire process. Their dedication and hard work are deeply appreciated and have been instrumental in bringing this exceptional exhibition to life.

Additionally, we want to thank the jurors who had the difficult task of selecting the accepted entries. With the quality of work submitted, this was not an easy job. IAPS uses a jury pool of talented and experienced jurors for this very purpose. Our current Jury Pool includes Ellen Eagle, Ray Hassard, Isabelle V. Lim, Richard McKinley, Colette Ody Smith, Rae Smith and Jimmy Wright. A special thank you goes to Sylvie Poirson, president of Art du Pastel en France. She will be in attendance at the convention serving as our judge of awards and conducting a galley walkthrough.

DUELING DEMOS A TICKETED EVENT

Thursday, June 18th, from 1:00 to 4:00PM

The concept of the Dueling Demos is four sets of two artists painting from a shared reference. The audience can walk around each pair, watch them demonstrate and engage with the artists. A fun event! Purchase tickets through your registration.

Our Dueling Pairs this year will be Mike Ishikawa vs. Carol StrockWasson, Christine Bowman vs. Mike Mahon, Fang Sullivan vs. Jane Romanishko, and Terrilynn Dubrieull vs. Tobi Clement. Proceeds from tickets to this event benefit the IAPS Scholastic Fund.

MIKE ISHIKAWA

I quickly analyze the photo or scene and sketch the scene on my paper, and try to complete the painting in about one hour. I start by applying pastels. I then take a sponge and blend and fill in the tooth. Next is India ink, brushing in all the dark areas. I then apply pastels, the darks, mediums and leave the light colors to the end. I like using bright colors and strong marks, very little blending. I like painting on Uart 400, I try and blaze my own path so that my paintings have their own unique style.

CAROL STROCKWASSON

I begin by choosing a limited color harmony to set the mood, then block in a loose underpainting. I spray a non-toxic mist to liquify areas and, while it is still fluid, pull a squeegee through the pastel, letting lines and drips happen naturally. I continue dragging and layering pastel to create temperature shifts, value modifications and increased texture. I love that mix of control and surprise—building depth through color harmony and color layering, until the painting feels luminous and atmospheric.

CHRISTINE BOWMAN

My work primarily features trees from the region. I use creative license for color choices. I rarely paint the sky blue. I'm particularly drawn to and love painting the negative spaces formed by the tree branches. I experiment with different papers and explore various techniques for underpaintings.

MIKE T. MAHON

When I begin a pastel painting, I'm not chasing detail — I'm chasing structure. Everything starts with design. I want a strong drawing, a clear value pattern, and a simple arrangement of shapes that holds together before I ever get seduced by color. I work on sanded paper on a rigid board. I think constantly about edges, temperature shifts, and how each shape relates to the whole. My goal isn't to copy nature — it's to interpret it with clarity and unity.

DUELING DEMOS A TICKETED EVENT

Thursday, June 18th, from 1:00 to 4:00PM

FANG SULLIVAN

My work is guided by a deep love of color and a desire to capture the fleeting beauty of everyday life, bridging classical Impressionist principles with a contemporary sensibility. I believe a portrait should express both the personality of the model and the character of the artist. Working in soft pastel for its immediacy and richness, I use expressive broken color technique to bring forward subtle, often hidden hues, infusing each portrait with emotion and a deep sensitivity to human connection.

JANE ROMANISHKO

Being a people person, I often connect with the subjects of my paintings. When I paint them, my soul remembers that connection, guiding the entire process. I begin with the shape of the head, making sure it feels balanced in the space. Then I draw construction lines, establishing the turn of the head and the placement of the features. I build values of each plane using hard pastels. This stage can be messy and uncertain. Then I refine features, edges, texture and details with softer pastels. The final challenge is knowing when to stop — leaving the portrait alive with spirit and mystery.

TERRILYNN DUBREUIL

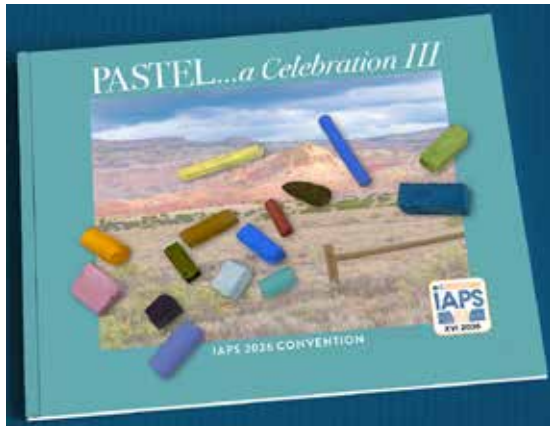

Light, color, and emotion attract me to contemplate painting an image. Using a combination of resources — edited photo designs, value studies, and color studies — I eliminate anything non-essential to focus on stronger expressive aspects of a painting. I often start with abstract underpaintings, then build layer-on-layer by using a variety of mark making techniques, until I find the image that comes from a collaboration between the creative energy and my intent. When I set aside my critical mind and allow the creative energy to be more present, the paintings have greater impact.

TOBI CLEMENT

In New Mexico, the light and color in our skies serve as an emotive subject. I begin by exploring a color story, which leads me through the reference image, considering dynamic color relationships, pushing and pulling the color interactions until the story begins to unfold. Using shapes in a landscape to inspire a design, the color story speaks to the emotional quality of the place. By building layers with soft pastels, I can push the dry pigment around with brushes, moving it to blend, mix or mute a color, even removing it to expose the under-layer.

The Grants provide the opportunity for IAPS Member Societies around the world to advance the knowledge of pastel to their members and/or spread the appreciation of the pastel medium to the public. They are open to IAPS Member Societies in good standing across three global regions. Anyone wishing in underwriting sponsorship to help fund this educational advancement of pastel, or societies interested in applying for a grant, please contact Vic Mastis at vicpastel@aol.com.

MASTER CIRCLE AWARDS

JOANNE AGOSTINELLI

Joanne Agostinelli is a painter living in the beautiful Verde Valley just south of Sedona, Arizona. She is inspired by nature regardless of what piece of the planet she is standing on. Her pastels and oils have been exhibited throughout the country and her professional affiliations include membership in the Pastel Society of America and the Arizona Pastel Artists Association. She was a two-term president of Connecticut Women Artists.

BITHIA BJURMAN

Bithia Bjurman is a realist pastel painter drawn to the quiet beauty of everyday life. She focuses on small, unguarded moments and the way light settles across ordinary objects and spaces. She is fascinated by stillness, subtle light, and the poetry of ordinary things. Her paintings invite viewers to slow down and observe. Her process is patient and layered, building atmosphere and emotional resonance through color. Bjurman has exhibited nationally and has earned recognition from PSA, PSWC, NPS, and IAPS.

DEBORAH BREEDON

Deborah Breedon actively pursues a lifelong interest in art, expanding her personal boundaries as a contemporary impressionist pastel artist, focusing on plein air landscapes and abstract painting. Her interest grew from teaching art classes at SBCC's Center for Lifelong Learning. Her work was honored by IAPS 45th Open Division for Best of Show in 2024. Her juried work was accepted by The California Art Club for their Artist category. More recently she was juried in 2025 PSA's 53rd Annual Exhibition: Enduring Brilliance.

CHERYL BROWDER

Living in Colorado, I only need to step outside to find endless inspiration. My representational style comes from a love of the landscape, the impact of one color against another, the light, it is this visual idea that inspires a painting. I love the immediacy and directness of approach. Pastels allow me more control and I have all the colors and values. Simply put, I love to paint, it brings me joy and hopefully to those who see it.

MARK IVAN COLE

Award-winning artist Mark Ivan Cole, PSA, IAPS/MC began making art as soon as he could hold a crayon. He could be described as self-taught, but that does not give proper credit to the amazing artists whose works and methods he has spent decades studying. He was juried into the Pastel Society of America as a signature member in 2018, received his Master Circle designation from IAPS in 2025, and has painted, exhibited and taught around the world. When not out with his wife exploring some beautiful place, he is at home in Portland, Oregon, USA.

MASTER CIRCLE AWARDS

DARCIE CASE ROBERTS

Darcie has been fully engaged in the art of pastel for 10 years. Taking workshops, exploring, and time at the easel have helped her develop her skill. Whatever is beautiful! It might be a ditch reflecting soft evening light or a frozen lakeside beginning to melt in the spring.

Fine art has always been in my life. JEFF FIORAVANTI

As physical presence fades, forms blur, the impact of the place remains in snapshots upon the heart in light and shadow, whispers in the grass, the sound of rocks embraced by departing waves and life's moments. It is the soul of place, of objects, of time and memory that I try to capture with each stroke of pastel so I might then share those impressions with the viewer, who, heart-drawn by their own connection to those lands and treasures, or places like it, will wrap themselves in peace and joy. This is what I hope to accomplish with my art.

"The many 'extraordinary in the ordinary' scenes that surround us are often overlooked as we rush through life searching only for the grand, postcard-worthy experiences. Spending time with these simple scenes adds a unique richness to life." Now a retired university art professor, Peer continues to teach through workshops and demonstrations. He is a Signature Member of PSA and OPS, and his artwork can be viewed on his website at charlespeer.com.

EMINENT PASTELIST AWARD

LORIANN SIGNORI

For me painting is putting something wholly unlike seeing in seeing's place, to 'stand for it', maybe, but not to stand still for it. To do this I explore that place where perception shifts. Light breathes upon light. And rather than show an object as it is, I evoke the idea through light and atmosphere. It is an incremental balance, so as to bring a state of the soul. You can find my work in pastel magazines, online and at Warm Springs Gallery..

CAROL STROCKWASSON

Carol StrockWasson is a distinguished pastel artist whose work explores the dialogue between control and spontaneity through layered, textured surfaces. Inspired by the rural landscapes of her home, she works in both plein air and studio settings, creating paintings that balance structure, intuition, and discovery. In addition to her studio practice, Carol teaches at StrockWasson Studio and online, fostering strong artistic foundations in composition, color, design, and personal creative growth.

MARY LYNN SULLIVAN

Mary Lynn Sullivan, a pastel artist from the Chicago area, is a Master Status member of the Chicago Pastel Painters, and President Emerita of the DuPage Art League. Mary Lynn taught Illustration at the College of DuPage before taking a position in Marketing Communications with Castrol/BP. Her art has been published in *Pastel Journal* and IAPS' *The Globe*. She was proud to be awarded Bronze in the IAPS 2021 Master Circle Exhibition.

JEANNE TANGNEY

While pursuing a full-time career in fields ranging from cartography to IT security, Jeanne continued to cultivate her artistic skills. Her work has been honored with numerous awards and is represented in collections throughout the United States and abroad. Working from life whenever possible, Jeanne is celebrated for her expressive portraits, captivating still lifes, and evocative landscapes. Her paintings reflect a keen, thoughtful observation of the people we encounter and the environment around us.

DUG WAGGONER

I entered the College of Arts & Crafts in 1959 graduating with a BFA degree launching a 40 year career as a commercial artist. In 2005 I joined The Pastel Society of the West Coast (PSWC) and The International Association of Pastel Societies (IAPS). My pastel craft has garnering acceptance and awards in numerous domestic and international art shows and have representation in several prestigious art publications. Accolades have earned the Pastel Laureate with PSWC and now the Eminent Pastelist with IAPS. I have truly been blessed.

*Look for the call for entries for the Fall Juried Webshow in late summer,
and the 2027 Spring Juried Webshow in February, 2027!*
